Good morning Rob,

We have to treat the VLSFO this week to reduce the total acid number. The original testing done by AMSPEC was wrong. It shouldn't be a problem, but we will need to roll the balance of the VLSFO.

Kindest Regards,

Tommy San Miguel

Sorry – also we rolled as per your instructions below (Nithasha sent a recap yesterday). If it looks like we'll need to roll the balance of the VLSFO please let me know.

Regards,  
Rob

Hi Tommy,

Thanks for the update, and please keep me posted on the VLSFO – hopefully you can get that moved quickly.

On the Miss Claudia payment – is that all coming from one counterparty? Any specific issue causing the delay (were they slow to pull the product)?

Regards,  
Rob

Hi Rob,

Monjasa Sale:

- Is the plan still to sell them a clip of the MTI product? The viscosity is a little low (off spec). I ran out of room and can't fix. So we have an offer from [REDACTED], but I'm waiting on offers from three others too. [REDACTED]
- Any context for the delay (quality? price?)

[REDACTED]

Miss Claudia (80kb priced):

- Are we still anticipating repayment this week? It's looking like the following week. Waiting on funds.

[REDACTED]

- Financials
  - o Will SGR have mid-year financials available? **We only generate annual financials.**
  - o If so, any idea on timing?
- Colombia Info
  - o If we want to keep pushing this with the banks, we'll need to send them answers to the request sheet on the terminal **We have just been covered up. I will try to get that done this week or next.**

Kindest Regards,

**TOMMY SAN MIGUEL**
